DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments found in the fourth paragraph of page 2 of the Response to Office Action filed 4 October 2004 are persuasive. The prior art fails to teach or make obvious the limitation relating to the processing in the transmitter of a payload signal and a transmitter-side timing reference signal to generate a digital subscriber line transport signal including frequency and phase information associated with the transmitter-side timing reference signal in combination with the remaining limitations recited in independent claims 1, 9 and 17 and therefore the rejections to these claims are withdrawn. The rejection of claims 2-8, 10-16 and 18-22, depending on claims 1, 9 and 17 are similarly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
